

MAKE A WEBSITE

Oct 17th, 6pm

Cartwright 259

We're going to be starting from scratch.

We're not assuming you have advanced computer skills.

We'll build and host a professional looking personal website for FREE in two hours.

We'll start with a 30-minute introduction to building basic websites.

Then we'll use a template and fill in your information.

Host on Microsoft Azure, a cloud service, for FREE.

I'll have **FREE FOOD and Microsoft SWAG** for everyone!

*Please bring your laptop so we can work on your site during the workshop.
